EDUCATION

St. Augustine Secondary School

High School Diploma

Brampton, Ontario

Sep. 2022 – Jun. 2026

EXPERIENCE

Design Like a Girl Hackathon

Winner – Assistive Tech Prototype

Jul. 2025

Hamilton, ON

- Led development of a wearable prototype, **EchoLens**, using a Wio Terminal to assist visually impaired users through audio feedback.
- Simulated ultrasonic sensing with a light sensor to modulate beeping frequency based on proximity.
- Integrated YOLOv5 object detection using mobile camera + laptop to simulate visual-to-audio translation.

Hack Canada

Hackathon Participant

Feb. 2025

Waterloo, ON

- Built **NutriMind**, an AI-powered recipe recommender using TypeScript, Node.js, and Google Gemini.
- Implemented a Retrieval-Augmented Generation (RAG) system trained on 500K+ recipes with LangChain.
- Designed front-end with Next.js, TailwindCSS, Framer Motion, and ShadCN.

Deloitte & Kode With Klossy

Sustainability Challenge Finalist

Dec. 2024 – Feb. 2025

Remote

- Developed **GaiaIntel**, an eco-insight app promoting climate-conscious decisions.
- Pitched to Deloitte executives, showcasing technical innovation and environmental research.

Kode With Klossy

App Development Scholar

Aug. 2024

Remote

- Created **Care Comrade**, an emergency help app built with Swift and Xcode.
- Led UI/UX and logic components in a collaborative, fast-paced environment.

Black Wealth Data Center & Kode With Klossy

Challenge Finalist

Apr. 2024 – May 2024

Remote

- Analyzed Yelp API data to visualize trends in Black-owned businesses in St. Louis using Looker Studio.
- Created interactive dashboards highlighting economic opportunities.
